

Press Release

Zurich/Vienna, 12 January 2018

oneclick AG cooperates with Insight

oneclick AG has gained a strong partner in Insight Austria for the sale of the Workspace Provisioning and Streaming Platform in the DACH region (Germany, Austria, Switzerland).

At the end of the year, oneclick AG entered a strategic partnership with Insight Austria to drive sales of the Workspace Provisioning and Streaming Platform in German speaking markets. Decision makers at Insight were particularly convinced by the possibility to make their own on-premises environments available for mobile access with oneclickTM and to access these environments using digital workspaces.

"First joint sales activities have already started and feedback has been very positive", explains Florian Bodner, founder and CIO of oneclick AG. "We will now work on integrating the feedback into product development and tailor our solution further to customer and market requirements."

Characterised by technical developments, Insight is nowadays considered one of the leading vendors of intelligent IT solutions, supporting companies worldwide with the introduction of innovations and improvements of business performance. The internationally active company employs a staff of more than 5,700 in 22 countries and operates in more than 180 countries.

"Insight stands for innovative and simple solutions with a real added value for our customers. In oneclickTM we have found a partner, who perfectly complements our portfolio in the section Modern Workplace", says Manuel Meskendahl, Manager Solution Sales at Insight Austria.

With oneclickTM, users access their existing on-premises environments using a flexible and web-based platform. Therefore, mobile working becomes possible using any device at any location and at any time. Thanks to the oneclickTM platform, existing infrastructures are connected with the benefits of the cloud, without having to give up the company's own server.

You can find out more about the oneclickTM Workspace Provisioning and Streaming Platform by visiting our website (<https://oneclick-cloud.com>). Please do not hesitate to register for a free test account via our website.

About Insight

Insight Austria, with its branch office in Vienna, has been operating successfully for more than 10 years in the IT market and offers proven as well as tested IT solutions and services from a single provider. From analysis to planning and procurement to implementation and operation – we cover the complete service portfolio. We are, of course, DIN EN ISO 14001 and 9001 certified. Comprehensive manufacturing accreditation substantiate not only our excellent partnerships with numerous top manufacturers, but also our expert status in many ground-breaking technologies. Since the early 2000s, Insight is also well-known as a pioneer in the hosting environment. Our broad offer of pay-per-use programmes makes us one of the preferred resellers of our over 300, often international, service providers. Discover more at at.insight.com
